"I recently heard about, and became a member of the BCCCS.

I was pleasantly surprised to find the club to be an **extremely well-run organization** that helps many people from all levels of society. All cannabis that is distributed through the society is **natural, clean and relatively inexpensive**, making it a lifesaver for many individuals with disabilities similar to my own.

Its continued existence will bring an end to a lot of unnecessary suffering." - JV

"The club offers several programs for those with medical difficulties, including a **warm, friendly** and understanding **atmosphere**. Having a place to go to buy **good quality medicine** instead of having to buy on the streets means a lot to someone who struggles with an illness." - KK
